President's Letter

Dear Jefferson Manor Neighbors,

Fall is in full swing and that means that footballs are flying, temperatures are dropping and so are the leaves. We've had an exciting summer in the Manor with many new additions to our community. I want to welcome all of our newcomers, both those in diapers and those who just moved in.

In this edition of the newsletter you will find updates on two projects of high importance to the neighborhood—traffic calming and transportation, and the land use project related to the Huntington Station Plaza. We have been working hard to facilitate these two projects with the county and have made good progress with each.

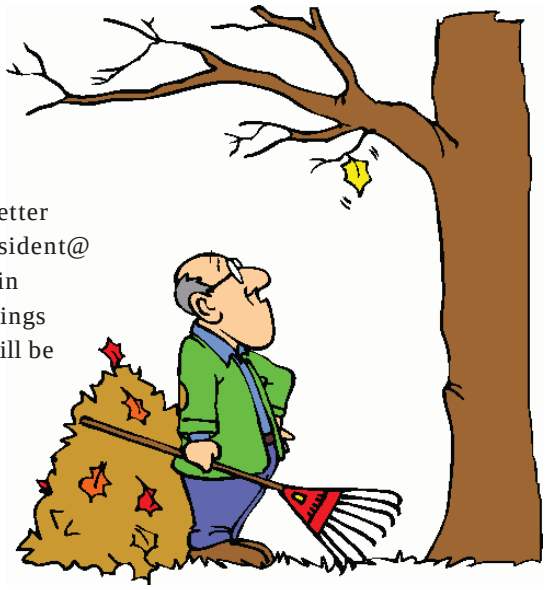
As we get into the late fall season and early winter, here are several reminders to help keep the neighborhood in good working order.

1. Please make sure your street gutters are cleaned and not clogged with leaves as they begin to fall. This causes ponding and flooding when we have rainy days.

2. Hopefully we're not "lucky enough" to see any snow in December, but in case we do it is your responsibility to shovel your own sidewalk. If you live near elderly please check in on them and also help out with shoveling their sidewalks if needed.

3. Prepare an emergency kit. During last winter's blizzards the Manor did experience power outages. Prepare now to ensure you have the necessities for surviving up to 3 days (batteries, non-perishable foods, candles, etc.).

4. Watch out for pedestrians. As we fall back the first weekend in November, we have pedestrians out during the dark going to and from the metro. Keep an eye out for folks as you traverse the neighborhood streets.



As we close out 2010 and look forward to 2011, I look for your suggestions for how we can make the JMCA better and better serve the community. Please send your suggestions to me at president@jeffersonmanor.org. These emails go directly to me and not to the listserv (in case you are worried about blasting everyone!). We have a lot of exciting things happening in our region and neighborhood and community involvement will be critical as we end this year and bring in the new one.

Thank you.

Tim Norris, President, Jefferson Manor Citizens Association, president@jeffersonmanor.org

Huntington Plaza Station Update

Since we last met in July at our General Membership Meeting, there has been a fair amount of movement made related to the Huntington Station Plaza project working with the county on a solution for amending the current plan to provide for redevelopment of the site at some point in the future. The Board has been working with a task force of community members to make sure that the community's needs are met. Here is a recap of the steps that have been taken and upcoming items that we'll be working on.

First we formed a working group composed of Tim Norris, President of JMCA; Tom Rickert, long-time resident and real-estate expert in the neighborhood; Chris Soule, former 3-term president of JMCA; and Craig Mehall, resident and homeowner inside the study area of Monticello and Farmington. This group has been meeting with the county to determine the appropriate next steps.

With approval of the board and the working group, we officially requested of the county staff to assist with amending the conservation plan. This is simply a request to help draft amendment language by county staff in coordination with the JMCA. Supervisor McKay is slated to present our request at the November 16 meeting. Again, this is a request to start the amendment process. Once we have drafted amendment text we will share with the community for feedback.

Once the community has approved amendment text, it will then go to the Fairfax RHA department to begin scheduling of official public hearings and move forward in the process.

Also, the working group has met with the owner of the Jefferson Manor apartments that borders the Huntington Station Plaza on Monticello to engage and bring them into the process and update them on where the community's priorities are with regards to specific concerns such as building heights, traffic, access to the metro across North Kings Highway, home values, densities and uses.

As we get more information after the November 16 county board meeting, we will be updating the community on next steps and timelines for when conservation plan amendment text will be available to review.

One note, amending the conservation plan is only the first step in a minimum 18-month, and likely longer, process. The conservation plan is the governing document related to preserving the neighborhood. Any amendment will continue to serve to protect the neighborhood and only open up opportunities within the defined area of the plaza under the study. After the conservation plan is amended, then we must go through an amendment process to the county comprehensive plan, which is where more detail on densities, heights, land uses, etc. are defined. This, again, will be developed in close cooperation between the county, land owners and the JMCA to provide the biggest benefit to the community while minimizing the impact.

If you are interested in being more involved with this project, please send an email to president@jeffersonmanor.org.

Holiday Wreath Laying at Arlington Cemetery
December 11, 8:30 a.m.
For the 19th consecutive year, Morrill Worcester, owner of Worcester Wreath Company, Harrington, Maine, will donate thousands of Maine balsam fir holiday wreaths to be placed on graves at Arlington National Cemetery. This year, in conjunction with wreaths sponsored through the Wreaths Across America program, there will be approximately 20,000 wreaths placed at Arlington in Sections 28, 38, 43 (in the older section of the Cemetery), and Section 60 where many of those lost in our current conflicts are buried. There will be a short welcome and briefing of all volunteers at 8:30 a.m. at the intersection of Lincoln and Mitchell Drives within the Cemetery.

Jefferson Manor residents attend annual picnic

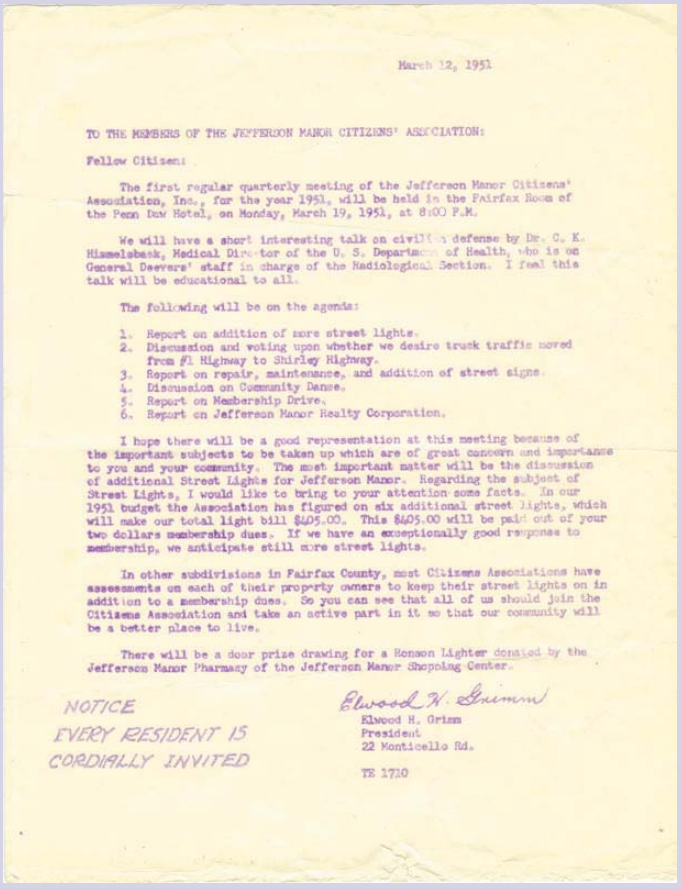
On September 26th 40-50 Jefferson Manor residents braved the sprinkles and cloudy skies for an afternoon of fun at the Jefferson Manor Park Pavillion. From the grill, neighbors enjoyed hotdogs and hamburgers and the children enjoyed an afternoon in the park. Thanks to Julie Upham, Kristina Beall and all that helped make this event a big success.

Neighbors gathered in September for the JMCA annual picnic. *Photograph by Kevin Ginestet.*

Blast from the Past...

Left: An announcement for the first meeting of the Jefferson Manor Citizens Association, 1951.

Right: A copy of the 1965 JMCA budget.



March 12, 1951

TO THE MEMBERS OF THE JEFFERSON MANOR CITIZENS' ASSOCIATION:

Fellow Citizen:

The first regular quarterly meeting of the Jefferson Manor Citizens' Association, Inc., for the year 1951, will be held in the Fairfax Room of the Penn Daw Hotel, on Monday, March 19, 1951, at 8:00 P.M.

We will have a short interesting talk on civilian defense by Dr. C. K. Himmelsbaek, Medical Director of the U. S. Department of Health, who is on General Deevers' staff in charge of the Radiological Section. I feel this talk will be educational to all.

The following will be on the agenda:

1. Report on addition of more street lights.
2. Discussion and voting upon whether we desire truck traffic moved from #1 Highway to Shirley Highway.
3. Report on repair, maintenance, and addition of street signs.
4. Discussion on Community Dance.
5. Report on Membership Drive.
6. Report on Jefferson Manor Realty Corporation.

I hope there will be a good representation at this meeting because of the important subjects to be taken up which are of great concern and importance to you and your community. The most important matter will be the discussion of additional Street Lights for Jefferson Manor. Regarding the subject of Street Lights, I would like to bring to your attention some facts. In our 1951 budget the Association has figured on six additional street lights, which will make our total light bill $405.00. This $405.00 will be paid out of your two dollars membership dues. If we have an exceptionally good response to membership, we anticipate still more street lights.

In other subdivisions in Fairfax County, most Citizens Associations have assessments on each of their property owners to keep their street lights on in addition to a membership dues. So you can see that all of us should join the Citizens Association and take an active part in it so that our community will be a better place to live.

There will be a door prize drawing for a Ronson Lighter donated by the Jefferson Manor Pharmacy of the Jefferson Manor Shopping Center.

DIY—Jefferson Manor Style

This edition will deal with winterizing your home. Here is a list of areas that you should consider when preparing for winter. I am sure that we all remember the snownami we had last year as well as the power outage.

Furnace

- It's a good idea to call an HVAC company to clean and inspect your furnace. If it has been a while since your ducts were cleaned, you may want to have that done.
- Keep a supply of furnace filters on hand and change the filter every month.
- Consider switching out your thermostat for a programmable thermostat.
- Make sure that there is nothing flammable near your furnace or water heater.
- If there is a power failure never use a charcoal grill to heat the house (this can be life threatening).

Doors and Windows

- You should inspect the exterior for crevice cracks and exposed entry points around pipes. These should be sealed with mortar or caulk.
- Install weatherstripping around doors to prevent cold air from entering the home and caulk around window trim.
- If you do not have a storm door, you may want to consider buying one (the home improvement stores will install them).
- Replace cracked glass in windows. If you still have the old-style single pane windows, this may be a good time to consider replacing them, plus there is an energy tax credit available. If you cannot replace them, consider buying a clear plastic shrinkable film that you can tape to the window, you then use a hair dryer to shrink it tight (this can be very effective in keeping cold air out).
- If your basement has windows you may want to protect the window wells by covering them with plastic shields.
- If you have storm windows, install them.

Roof, Gutters & Downspouts

- Adding extra insulation to the attic will prevent warm air from creeping to your roof and causing ice dams.
- Check flashing to ensure water cannot enter the home.
- Replace worn roof shingles or tiles.
- Clean out the gutters and use a hose to spray water down the downspouts to clear away debris.
- Consider installing leaf guards on the gutters or extensions on the downspouts to direct water away from the home.

Weather-Specific Equipment

- Drain gas from lawnmowers.
- Service or tune-up snow blowers and generators and keep a supply of fuel on hand.
- Replace worn rakes and snow shovels.
- Clean, dry and store summer gardening equipment.
- Purchase bags of ice-melt/sand.
- Make sure the tires on your car are in good shape and have your brakes checked. Top off your windshield washer fluid.

Foundations

- Rake away all debris and edible vegetation from the foundation.
- Seal up entry points to keep small animals from crawling under porches or decks.
- Tuckpoint or seal foundation cracks. Mice can slip through spaces as thin as a dime.

continued from previous page

- Secure crawlspace entrances.

Smoke and Carbon Monoxide Detectors

- Buy extra smoke detector batteries and change them when daylight savings ends.
- Install a carbon monoxide detector near your furnace and/or water heater.
- Test smoke and carbon monoxide detectors to make sure they work.
- Buy a fire extinguisher or replace an extinguisher older than 10 years.

Prevent Plumbing Freezes

- Locate your water main in the event you need to shut it off in an emergency.
- Drain all garden hoses.
- Insulate exposed plumbing pipes.
- Cover exposed hose bibs with an insulated cover
- If you go on vacation, leave the heat on, set to at least 55 degrees.

Landscaping & Outdoor Surfaces

- Trim trees if branches hang too close to the house or electrical wires.
- Ask a gardener when your trees should be pruned to prevent winter injury.
- Plant spring flower bulbs and lift bulbs that cannot winter over such as dahlias in areas where the ground freezes.
- Seal driveways, brick patios and wood decks.
- Move sensitive potted plants indoors or to a sheltered area.

Prepare an Emergency Kit

- Buy indoor candles and matches/lighter for use during a power outage as well as flashlights and extra batteries.
- Find the phone numbers for your utility companies and tape them near your phone or on the refrigerator door.
- Buy a battery back-up to protect your computer and sensitive electronic equipment.
- Purchase an extra battery for your cell phone and make sure it is charged.
- Store extra bottled water and non-perishable food supplies (including pet food, if you have a pet), blankets and a first-aid kit in a dry and easy-to-access location.
- Prepare an evacuation plan in the event of an emergency.
- Make sure you have a sufficient quantity of prescription medicines to tide you over for two weeks.

Be a Good Neighbor

- If you have neighbors who may not be able to or who should not shovel snow, make arrangements beforehand to help them out.
- Check on neighbors frequently during a snow storm or power outage.

Miscellaneous

- Now is the time to buy winter clothing. Make sure you have insulated jackets, gloves and hats as well as waterproof boots with non-slip soles/heels.
- If you walk your dog in cold weather make sure you have a coat for them and warm up their paws.
- If there is a power failure put the food from your refrigerator/freezer in containers outside in the snow in a shaded area so that it doesn't spoil.
- Make sure you have plenty of blankets/comforters/socks so that you can stay warm during a power outage.

Stay Up to Date with JMCA

Want to keep up to date with the latest JMCA news and goings' on? Join us on both Facebook and Twitter.

JMCA has had a Facebook group for a while now; however, we are changing. We have migrated to a new Facebook Fan page. This will make it easier for Jefferson Manor residents to find us on Facebook. Join us today by searching **Facebook groups** for Jefferson Manor Citizens Association.

Did you know that JMCA is on Twitter? If you are a Twitter user follow us **@JMCA22303**.

As always we will post information to the listserv and within our bi-monthly newsletters. These additional avenues allow our neighbors to connect with the community through a variety of different venues.

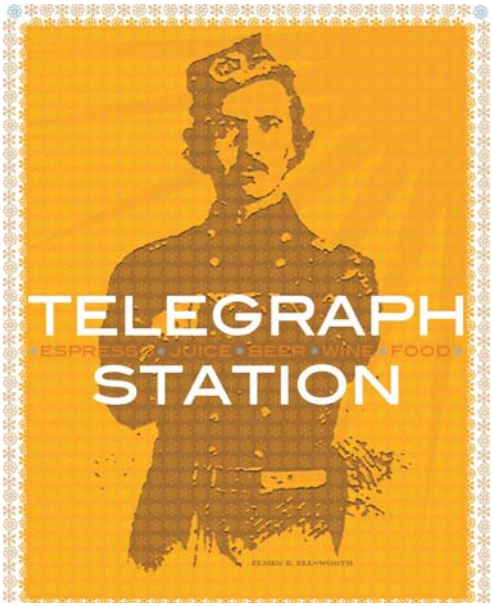
Also, check out a new community site that covers the Jefferson Manor neighborhood: **http://bellehaven.patch.com/**

Save The Date:

JMCA Holiday Party
Sunday, December 5

Watch the JMCA website and listserv for details.

Welcome to the neighborhood!



Telegraph Station is now open!

Located at 5735 Telegraph Road (formerly Janet's Java).

Traffic Calming Plan Under Development

The JMCA Traffic Task Force has been working with Fairfax County engineers and VDOT to implement traffic calming measures in Jefferson Manor based on the traffic study completed last year. The team recently met with the county officials to continue the review and refining process for potential traffic calming measures for the neighborhood to complete development of a plan that best addresses the traffic issues while meeting the Fairfax County planning and VDOT guidelines.

We have arrived at the following plan for official presentation to the neighborhood for vote:

Farmington Drive

- (1) speed table to be placed at lower portion before park entrance between Telegraph Road and Edgehill Drive
- (1) speed table to be placed at upper portion before intersection with Monticello Road
- Parking lane striping to be installed at both sides of road from North Kings Highway to Edgehill Drive.

Fort Drive

- (1) speed table to be installed at the mid-point of Fort Drive
- Parking lane striping to be installed at both sides of road from North Kings Highway to Edgehill Drive

Edgehill Drive

- Although the section of Edgehill Drive between Farmington Drive and Fort Drive qualified for traffic calming measures, traffic codes and guidelines, and the neighborhood's existing conditions (primarily the 65-year-old planning standards that the neighborhood was built upon) prevented approval of the various measures that the JMCA Task Force and county engineers investigated.

Be sure to come out for the upcoming General Meeting where we will be formally presenting the final plan, review the next steps for the process (voting and final approval with the county), and general Q&A.

—Brian Allen
